 ning storm of the season came

 for two years and the rain was
 plentiful, fairly poured.

~~Sept 25~~ ~~Sept 26~~ At once clear day and sun shone

 Camp's line forward very wet and in one
 place water bushes started and we had

 started to rain on snow in day, but did
 not get much done until saw a horse
 at 10:30 and rain died up some when
 it went well and we got a break. As
 we walked at snow, thirty bundles it

 ing west side of snow and then started on

A Good Harness Oil.

To two quarts of fish oil add two pounds of mutton tallow, one pint of castor oil, one-fourth pound of ivory black, one-half pound beeswax, four ounces of rosin, one ounce of Burgundy pitch. Put all together in an iron kettle over a slow fire. Boil and stir half an hour. Then set off and let settle fifteen minutes. Then pour into another vessel, leaving all sediment in the bottom. When cold it is ready to use. If you cannot obtain fish oil, get neatfoot oil. The fish oil will keep mice from gnawing the harness. This recipe beats coal oil and tallow, says a correspondent of National Stockman. After harness has been oiled and rubbed in, wipe off with a clean dry rag. It only needs to be applied once a year and makes the harness soft and glossy black. We find this an excellent dressing for shoes that have seen rough usage.

1903 Started to rain this evening at
 Sept 12th Snow and kept it up with the rain
 when it started to snow and kept it
 up because of day, about as fast as they
 could as I was seen here, a foot or a half
 of snow fell and stuck to me nearly on
 level, some places drifts five feet deep.
 George & I went to Cat Lake in morning
 and George stayed there, I will take the
 train a day time to go away
 and staying. This day as it was frozen
 some but not much. I was near in morning
 to Dr. this morning and that some looks

 sleeping was so bad we were afraid we
 could not sleep it but we had some
 snow to come and also the weather as
 she did not come last night. Almost
 some today but not very much, so

 One of our best young boys died today.
 Some children young boys were not much

1903 Snow & George went at fence with
 Sept 15th Snow they were near to Cat Lake
