1919 I took legs out to Dr
W. H. Kase in car this morn. and
she went in window with Dr.
To one hand and had a
little rest night and we did
not begin thinking at Nevada
until noon. Got two loads
loaded out forenoon that is
all we have. Minutes Brown
Came down from N. O. this
morn he's went to last here
afternoon this morn
Mr. Donthier down south of
here to look for three stags
last three he's could not
find anything of them
We came home by car
here and got settlement
for Co's stock, a few
mules.

1919 CC call said from N.W. on
Sept 19, day had car in
once a boy left and had to stop
thinking at the house at ten o'
clock, had no engine and had to
go to Nevada to get it fixed.

1919 Sun. I made two traps
Sept 22 to Oct 2nd, ^{arrived} with the
dinner present. Cecil went to
Boulder afternoon with a
hiker. He bills me to send
to 2 hour duty. My wife came
home from office today
there is a note for her in the
trough to call her.
23 Sun. I got out from
Lords about today. Cecil took
Dr. Dunthorn's - from the top
I went south to check up
my two traps that are far
down river say this year.
He bills for some in the night
there. When please all
day pretty steady record.
24 Mon. I got out from traps
about today, as least we
got out this morning then
some traps were afternoon

1919 Tues. all went to Newmarket
this day I found all his
three big fore now they would
be other than to harvest.
Karl's present part of home
afternoon, I returned on
to home on Day party. Cecil
he bills for it also here, a
very high price all afternoon
from N.W.M.
Sept 25 I got on with the high
day today I saw a pair of
larks in the trap out to two
miles. He to clean from
at home I set off trap out
he's home so three big. A had
first this day we at trough
and next call all day, I
had to see one one out

 however, on follow on some
 quartz & fossils in. Knap of fossils
 which showing slightly out of place
 to place on some quartz
 for camp next spring. Coal & water
 showed the same from some
 and we far up a clear some
 load with fossils. My fire's been
 went to D. G. waiting on some things
 & showing very about things like

1919 A very hard from 1 last night
 Oct 10 twenty in. square of fossils this
 way. One showed all day. Coal
 went to some line at some this
 way, and found engine head
 & went with fossils so had to
 get some of fossils to put the
 engine on one separator and fossils
 and however they got along well
 of the town, down to D. G. Lane
 afternoon but a fine log
 potatoes for tomorrow's breakfast
 showed to be some things in. Coal
 tonight but some of the fossils
 appear

" 22 Snowing hard starting when
we got up this morn. and before
it all day about four inches of
snow fell and it was cold and
disagreeable. I took five traps
with me and set to W. B. Thomas
they weighed 1065 pounds and
sell at 1 1/4 cents per pound.
Boys did not do much at home
Cecil went to Brandon, with
horses in Pan and did not
get home until eleven o'clock
knew like as if this snow
would stay

1919 All day, we could not
 get 23 more at pump home
 and did not do much else
 picked up 48^{1/2} bushels of
 potatoes out of cellar and
 kept them in bin, our rule
 to get them at 100 per
 bushel.

" 24 11000 was all day but my
 family and thermometer
 below 30 tonight. Cold as
 winter yet but some to see
 some things his throat pretty
 sore. Went out in evening after
 snow that came off of the hill
 for 1/2 hr. and back. Some one
 from New York got still feed
 but in place of glass which
 we had because
 " 25 A fine day but cold for
 last in last frame from W. Campbell
 some because our valves can't be

1919 at pump home. Walk to
 Maggie's house and to get
 in car afternoon. Men on
 saw in evening but cold
 when it was all.

Dec 27 A fine day all but not
 so hot but what we wanted
 at pump home all day and
 got it well advanced. ~~Wrote~~
 kept near to get home in
 our forenoon's breakfast home
 could then in afternoon, the
 finished.

" 28 A fine day and not cold
 saw the old shoe but some
 who saw it. Working at pump
 house, went up to pump to
 pump after noon and got home
 at nine at night, Robert
 is next in line has to play
 fence. Removing things a
 little

1919 All out since all day but
 Oct 29 out very foggy. I left for
 two loads of wheat & home from
 Campbell. All got it all wheat
 and I cleared up the some of our
 own cleared for sale. Very
 pleasant at, sheep & home
 all day. Cecil working at Spr.
 Society hands in some. They
 today that it is very many have
 type of kind from

30 Staying out during all day
 a regular day as had as
 any day in January a lot of
 down falling sometimes we can't
 see horizon. Cecil took half of
 wheat to last late market
 7:19 then the two loads coal
 up to I. Whittles for our folks
 to home. This was to get home
 at 6:30. Ralph got one
 wheat from Campbell, got some
 something else from

1919 Cold all day and a pile of
 Oct 31 snow piled all over, our
 yard is full of snow and there
 is about six inches on the road
 I went to R. A. Wright's in
 on the 31st day. He has a good
 lot of wheat and getting on
 fine. I went back wheat to Dr
 here at the road and have went
 out to party tonight
 on 1st of fine day but pretty
 frosty. Cecil got one home
 from Dr. Campbell this day.
 and in afternoon he has a
 load of snow out to Dr
 state. He cleared wheat got
 rocks in to sleep, says for
 home some other from snow
 since I went to last late
 ing of the snow in

& stayed all night and will go to
Brandon tomorrow night on train.
"19 The fine warm day and
we are well a little. Went to
Brandon on train at 6:30 this way
and attended the exhibit of fine
land. Richardson today in winter
Spain hills, is splendid but of the
winds come to East State things
on train.
"20 I got some from East State at
noon today and found everyone all
right. Have went out in car to

(27)

1919 after noon and Cecil had
after home tonight, when she
came from Kewanee, a few days
and had to leave.
Jan 31 I went to see H. Huntaway
after noon. They got out business
home again. and I have finally
a fine day and had to leave.
" 22" Tom took pencil to Uncle Bill
and from there was here
and he began out to car house
after noon, they waited and
brought them home at night
again. Cecil was to start here
tonight with G. Miller. A fine
day and not cold. Long talks
came home with them.
" 24" began to snow and started
last night and kept it up all
day today. Snowed heavy and
blowing hard a lot of snow has
fallen and it was a cold night

 to make went out and got some
 coal for them from the Green
 Brothers. We all stayed at
 home.

Dec 1 Snowy below zero this day
 and no roads all day with a
 heavy snow from N. W. by 3 p.m.
 went to Post town in the night
 and is staying there for awhile.
 When I got by 11 o'clock
 and I find it is a piece as in
 condition.

1919 A fair day but cold wind
 Dec 2 went to Post tomorrow and
 turned south west soon night
 and it is very cold. Cecil got
 two loads of wood from Camp
 today, and tonight's train and
 he gave me to Kennedy to
 spend the evening, then
 because I went up to W. C.'s
 to see to Kennedy, he got there
 today.

"3 A fine day not very frosty
 but the south west wind
 is cold. Cecil got a load
 of wood from Camp for
 noon and in afternoon he
 and Cecil went to Post
 where he decided to take a
 load of coal up through
 down the road and by the
 the work in morning
 that was from home to a
 as usual.

(55)

1930 Long came home with one
as Dr. H. Cecil is practicing
himself again.

Nov 10 A fine day and snow thawed
a little, whose wind did not get
active, got all our acts and thought
that's clear today and began to
pick them through & shells day
following will. Cecil gone to see
Hattie Smith and back to work
with him, the latter goes to
Snohomish tomorrow. All of
Bennett's family down with flu
again and his of Carpenter
also. At his house it is worse now
than it was some time ago.

" 11 A cooler day than yesterday
and a very little thawing, snow is blown
down and well today and see a
chance. Good news to people
see the of the wind, Maggie went as
far as Lewis and stayed there in-

(56)

1930 till they came back. Hattie was
helping at home being our help
and all.

Nov 12 A fine day but all the
day and very little thawing. Boys went
to the lake in last date through and
through the tunnel out to home with
them, down but well all day
and set in chance.

" 13 Snow went some today and
wants getting very soft. People
and got last afternoon on
Snohomish and a load of about
strong for bedding. Hattie helped
in chance. Cecil was in to clean
up here at noon got a lot
done.

" 14 A fine day, wind N.W. and
becoming a little, at noon it
began to storm and we had the
worst storm down seen in the
country since when a few-

(57)

1930 noon and sun fell low
Linnæus down to stable when
was empty and could hardly
get back to dinner when
that one had got and was
seen over the stones, others
we could not see in stable,
went to blow a furnace all night
our horse chair was full
any thing like it, hardly felt
any. Stones continued until
noon today. but not so hot
as last night, night too
feet sleep in our hand, we
did nothing until noon then
after mid had to shovel out
the hay & and we put in the
after noon just shovelling
down.

"19 A fine clear day but cold
with some wind frosty all day
last sun was bright when

(58)

1930 Coil went to Oak Lake for
in which I did not get home until
the 1st time he brought a barrel
of flour, made very hard
snow & I went to snow for about
a stream, had to go out of
stable & beat a road west some
out of field of spruce bushes
home, the snow was from
Oatton's today.

"19 A fine day but cold. Coils cleared
wheat all day, during for load of them
from town, snow to Oak Lake after
noon, made and had snow but not
in this side had to plough on
account of snow.

"19 A fine day snow thawed a
little when sun did not get as it
had a cold N.W. wind all day
Coil cleared wheat all day. I
did clean and during for home
two loads of straw

(59)

1920 Maggie's house to Car Lake for -
Mar 20 snow is deep and has not yet melted

midnight. Snow past quite a
bit after snow but did not thaw
very -
" 21st Wind with out all day, very
foggy until 2 hours in P.M., then
cleared up and sun above strong
after and snow is very dense
water beginning to be above. One
week & Carl's hole frozen
Oil cleaning water to turn
hauling steam. Snow went up
to Br. L's today. On Sunday
see in Carl's says it is
preseason

(60)

1920 A dull day and no sun, beyond
Mar 23 to snow about two o'clock
and a good thick storm for a
couple of hours. A lot of snow
fell so though we did not have
enough before. Oil's house up
to down in way. had a job to
get there roads are so soft, he
stayed there to help her clean
saw grain, & started home after
dinner and got one of the horses
down in the snow - but for some
had cold but no thawing today
" 24th A fine day and cold did not
thaw any. Helped Carl's horse
and saw to Car Lake after snow
down to 11th on from ice level
train and reached there at
9.30 staying at Redgal
Alexander's photo down to
attend a meeting of the at-
tending board of Dr. Sorensen

(61)

1920 Snow in ~~at Lake~~ Rapp.

Nov 25th Call day today attending a meeting of Parkway board, held in Parkway building, West to C. D. Britton's thought for awhile. Cold all day and hot stormy day.

" 26th Left Rapp this morn'g for home and reached Oak Lake at two o'clock and put a nice home with Dr. Campbell, snow softened a little but did not go any, and we had a day full of soft snow - strong, saw that West Drive all day. Now remember these any place along the line some places snow nearly all gone and cattle out feeding.

" 27th A nice stormy day and snow went down, went to Oak Lake afternoon in Leigh to attend a meeting of Board. Snow came home with me. No school

(62)

1920 A call day and snow the

Nov 29 not much snow. Spent part after in cellar. Boys finished cleaning all our wood what today and we have all the wood cleaned now.

Had quite a snow storm today and there is very little left of 29 morn'. Cold and snow from to see babies cattle today.

So to sleep under snow Nov 28-29 day

" 30 A strong wind from east all day very strong and drifting, when a blizzard in at times, still at it as we go to bed. Strong, snow & snow to Oak Lake after noon school has gone out tonight in the

" 31 A very stormy day a regular blizzard with about three inches as cold & rough as a day in Long Port. Wind & snow & stormy towards night

(63)

1920 was below zero this way, when we
Apr 1st got up and kept very cold
all day and is below zero so we go
to bed, wind north and weather
is more like January than Apr,
Ceil temp had chp up to 20
forenoon and then had low when
went to bed. These obtained after
noon, I picked potatoes in cellar
all day
" 2 A very cold day, thermometer
below zero this way, and did not
thaw any all day. Ceil went
up to 10. Sleane this way, and
had not some out from there
for J. Kueenitt, I picked pota-
tubes in cellar all day,
" 3 A clear cold day I went to work
late afternoon with me as a meeting of
Directors of City, Smith & Hart. These
have shells. When out all
night, so there at all very cold

(64)

1920 A clear sunny day. but a
1st of 5 cold was not and no thawing
at all. W. Sleane came at noon and
brought one of 10. Little cattle out
and Ceil took the other, I picked
potatoes in cellar and found all some
cure hay.
" 6 A clear cold day and no thawing
at all. Keplph went to Car here
afternoon in sleigh took out eggs
Evean can also born Lamb and
his friends he is going up to Carleton
and intends practicing up there
some place and will not be here
so long of 2 spring yet
" 7 Another cold day but it thaws
a little. Ceil took 50 barrels when
to Guinness, that is all we have to
sell now. Sleane went to his potatoes
and got a load of straw. not so
cold tonight and looks as though
it might be well some tomorrow

(65)

1920 A cold north wind all
Apr 8 day and snow did not
fall any. Ceil got up early
and drove to Carl Lake & took
early train for Brandon. Snow
fell & snowed to Carl Lake in
afternoon in slight. Snow for
last stream from Ca. pastures to
day.

"9 A fine warm day. The best we
have had in two weeks and snow
thawed a little. Ceil's telephone
some changes today. Ceil's pasture
saw a team from ~~the~~ corner, &
saw a bad horse. Ceil's
Pastor went to a train, wait to
night.

"10 A fine day and warm weather
more than any day yet. Ceil
finished shipping horses. Eggs & other
got all the down in stable
down to Carl Lake of town

(66)

1920 in wagon, and down to the
mountain there so they are getting
at W. P. O. Ceil's mail went to
Carl Lake tonight to go to school
after Easter holidays

Apr 12 A fine warm day. But not so warm
as yesterday. Sunday was and down a
not so far, however it is going a
little. Ceil went up to ~~the~~ ^{the} ~~the~~ ^{the}
mud. Took some little eggs & horse
all the way in the sun. Snow got bad of
stream from some today and that
seems to be all there is there

"13 A nice clear day and Sun down
bright all day but there was a
cloud and snow did not
so very much wind at all
day and a circle around Sun
and we very slow now in town
Ceil came down from down
today, and went to a party
at Carl Smith's tonight

(67)

1920 A cool rain all day but
Apr 14 Sun bright & clear but
Quinn went a lot and water
being around. I took Cecil
up to Lewis Johnson stayed
there for dinner, then we saw
and Bill stayed there.
" 15 A cold day again but sun
bright and clear & snow tops
melting. Money back now slowly.
We killed two pigs this after-
noon one for Leonard and
one for ourselves. Walter
killing out because.
" 16 A cold wind all day, but a
lot of snow melt, but heat
coming on down & down to
Dart with him; to sunset
roads had out the dirt not yet
gone. Ralph took out a
pig to Leonard Johnson.

(68)

1920 We hunt today & get some fine
Apr 14 Cart date at 1939, roads very
bad and roads nearly impossible
for driving, we came up Karam
hill and across by Karam & Mr. R's,
Dram all day and saw few
one a list, Cecil came down from
Stoans tonight
" 19 A very warm day the warmest
we have had, and snow has gone
a lot and one falls are here
now. Ralph was down at three
today shooting some of road
" 20 Went to Cart date Johnson a
wagon route but but I have seen
three part as clear, I thought the
some timber, but had to leave
some of it on hill as I got stuck
snow very heavy Johnson a left
Quinn went on farm, because of
day a slight rain & foggy as
unrecoverable road of a day

(69)

1920 A cool day and droppin rain
Apr 21 All day but not heavy. Gene
& I went to Bar here afternoon in
expens and made very money.
Ceil come down in night & the
for dinner. But did not go
here today, & one Set of Hops
put away.
" 22 A fine day but damp &
did not dry, my got something
done to still land showed amount
some
" 23 A fine day but clear Sun
shine the fine show show
we have had for some time
and frame their some
But some two some some
day from some today, I went
to the Williams afternoon starts
the their from some up to
last made & left them to for
last feed, had staying some.

(70)

some and days did some
some
" 27 Ralph & some to
Williams got some die some
some show day, from some, I put
out for the Division afternoon.
A fine warm day, and people getting
started on land, some days from some

(71)

1920 A cold wet wind all day

Apr 28 Rays got home one stock hog from over spot in pits left home to Casson auction sale afternoon and bought a fine blue Clyde mare & another three year old colt, for \$395.00

"29 Sun began to dice on Cay quarter this morn. when we started to follow, that is the first we have done on land, Kappel also began to hammer the fall plowing and follow on Cay quarter. Cecil came here so he went out to Casson and bought home the horse's daughter at sale, he took the price that made home with him last night. A fine day and good getting dry.

"30 A fine day but a cold east wind Kappel hammering and Sun doing further Cay quarter over

(72)

1920 Sun bridge at Harrison's is

washed away at South end and we had to go around by Williams bridge. There came out with me afternoon and got a number of hares at Sandoz. Samuel came home with us.

May 1 A cold wet wind all day foggy pretty hard this morn. Kappel began to cultivate follow on Cay quarter with six horses today, and Sun four rods doing the 40 acres we started following on ~~Sand~~ Cay quarter. I went to Casson home afternoon around bay to Williams

"3 Kappel done the six horses on California until four o'clock it kept raining a little from then. So we quit. I done three horses on Casson on Cay quarter and Sun went to draw and dinner what we intend to follow there. Walter Sander showed

(193)

1920 A dull day but Sun did not
begin to shine and some light rain fell
I forecast fall plowing in Sun
then began to see the steam plowing
men build, Ralph was out with
in fallow on Coney quarter, Sun
was digging on Sun all day
"5 A fine warm clear day the
spring day we have had, I saw
all day on Coney quarter the first
seedling we have done. Sun did
a few more and then plowed
Gardens. Maetin harvested afternoon
with the two cats and J. S. Miller
here, Ralph was out with on
Coney quarter all day. Maggie
went up to Stearns afternoon
"6 Had some thunder and lightning
last night after we went to bed and a
little rain fell. A very hot day today
a fine sunny day. I see a
all day on Coney quarter

(194)

1920 Sun now shone in Sun. Ralph
finished cultivating on Coney quarter
and began in fallow quarter
home afternoon he harvested
on eight east of home. Got
Gardens plowed yesterday and
got some potatoes in today
Maggie A very hot day so warm as
July I decided all day on Coney quarter
Sun was done in Sun. Ralph harvested
east of home forenoon and went
to Oak Hill afternoon took out
calf to Kennard & has done
some feeding. Maetin was putting
out for in in Sun
"8 A fine warm day but a nice
breeze made it fine for working
I sowed wheat on Coney quarter
all day. Ralph harvested in Stearns
of home and Sun harvested a few
Maetin got all steam out of Miller
& Stearns Sun for tea this evening

(175)

1920 A nice forenoon coal and sand
May 10 for working but afternoon
is blown a hurricane that air

was full of blowing dust, had
to wait. I drilled when on Cay
quarters all day. Kahl ran cal-
timeter on forty south of house
and Tom checked on level. D. Gordon

Came today & bought a Cow at 195.00

" 11 Blew a hurricane again this after-
noon and air full of dust. I finished
evening work on Cay quarters & began
in forty south of house. Kahl
ran caltimeter in that forty all
day. Tom finished staking on Sand
and began to know where what
is named on Cay place.

" 12 A coal day and wind a little east
of south all day and blew pretty hard
afternoon some dust flying. I drilled
north of house all day but in evening
I saw clouds by land on Cay

(176)

1920 quarters. Kahl finished caltimetry
forty across south of house & began
at forty north of house. Tom ran
down on Cay quarters all day.
Walter firing furnace. I went to
last hole though it highly set
home at sundown.

May 13 A fine day but a cold sea breeze
all day. I drilled in forty across south of
house, Tom saw on Cay quarters
and Kahl ran caltimeter on S.W.
forty. Walter was firing furnace in house

" 14 A fine day wind after blowing from
east for a week turned south
today it was a nice coal day for
water. I drilled in S.W. forty across
from lower deck as it looks like with
that time to finish in south 40.

Kahl ran caltimeter in S.W. 40
all day. Tom was hammering on Cay
quarters all day. Walter showed me
tree & saw some hedges & brace
we & up to rigging at evening today

(177)

1930 A fine forenoon & cooler in part
May 15 on S.W. forty acres until noon
Then after tea it blew a shower
after noon from south and we did
not go out to see real potatoes in
house, Ralph finished collecting
the S.W. forty at seven then he
went to Williams after tea. Some fine
wheat remaining in Coney garden
at seven and he fed Walter for
up parts after, a few feet went
and some yellow will have
stripped from
" 19 A fine day but windy from
west and ground blew some
Ralph drilled wheat in S.W. 40 acre
day, Walter cut potatoes also but
D.S. little more up to Carl
and got in some more home
Yard did some remaining in pasture
& plowed some, shared to Carl's lot
around by Lucinda & hers

1930 train for Linden came - back to
Carl's home afternoon - came home
in car, the first time we have
went car this year. Grandpa
& Grandma and all little
family, here for tea, whole folks
& Walter & home staying. Home to
night
May 16 An awful wind all day cool
hardly see at times for dust. Spri-
ngled sowing wheat at seven today
then Grandpa & Lucinda to Carl's
after noon in car, Walter & Carl plow
the potatoes all day, Ralph plowed
" 19 A strong cold wind from west
all day and in afternoon we had a
fine shower of rain but not to
amount to anything, Walter saw
one to D. Goodwin this evening,
and did not see home until
near night, Walter & Carl fine
in field potatoes at noon, &

(179)

1919 Kephk got started plowing
down near home's
May 20 Son & I plowed all day, in early
even of home for out. It is
very dry and does not turn at
all just beneath us, Kephk
hauled manure with a spade
into pasture east of house.
A nice forenoon but wind set
in. Good good strong at noon and
air was full of dust and pollen
seems to be all going out. It is
bound to do a lot of damage.
" 21 Son plowed east of house for
out all day. Splowed with son
then went to Alameda to a place
Crescent. Kephk spent near
us in south early all day.
Walter showed. A nice fore-
noon but wind set up at noon
and blew a hurricane from
south, follows during fast

(180)

1920 Son plowed for out all day
May 22 Kephk spent manure for
noon and plowed after. Splowed
until noon and began to rain.
The ground after, a fine day, but
rained for up at noon began
this time from N.W. and follows
drifting again, wonder if any
rain will be left. Boys
Sprinkled & ball went up to Bill
tonight.
" 24 Rain a slight shower this day,
but very little, wind set strong again at
noon and ground drifted again. Son
& I took out ~~to~~ loads of calves and a
load of logs to cut for wire to W.
Bunthorn's got done at four o'clock.
Kephk plowed and Walter found
man Smith show all night, etc.
There's Bill all over station
starts today. Minnie went out to
school with M. D.

(81)

1920 I went out east of home all
May 28 day this is the first out
we have made. Keppel packed
with five boxes and Tom planned
Keppel will all day no sun and
afternoon it began to drizzle
and at five o'clock began to
come down pretty hard so
we stopped work, it is still
raining a little as we go to bed,
this rain will do a lot of good
especially if wind keeps down
and lets rain get a start again,
as some of it is pretty badly
blown,
"26 Rain last night but it was
more a drizzle and not much fell
but it is kept down today and
it will soon be, if wind comes
keep down now, the blown from
west come at, also raised a shower
at noon today. Tom planned

(82)

1920 for outside day also Keppel
Bill Macton spent about bottom
in south eight. I wrote foreman
and went to the lake afternoon
with Benley, had admission for
one trip in Presbyterian Church
for Steward & others
May 29 a large frost around as we
got up this way. but it was a nice
clear day and not windy. I worked
out all day. Keppel removed
and packed, Tom was blowing
slightly & somewhat some. Better
was blowing forwardly, Tom, Macton
& I went up to Bill's in car
trip
"28 A fine day but wind got strong
for awhile and had drifted a little
spiral coming out east of home
at noon and forward the last noon,
afternoon. Keppel stayed in South eight
for sleep forenoon and in afternoon

(83)

1920 We went up to 2. Spulcum for
forty five bundles of hay. Some
stowed for hay all day. Walter
went to Cecil's & had some cow milk.

Very pleasant

Very fine day, good choice for
hay ^{in the afternoon} ~~all day~~, it rained over
most of the day, it rained after we
went to Cecil's.

And we did not get up. Ruffed
up Walter, took three cows and
went out to Carl's in the evening.

And did not get home until
near night. So the children can
"know" it is staying with us as

they leave for Kelowna. A. E.
on Monday

" 31 Start to see from pigs to

Carl's house from Carl's side out

Get back home with some milk
from summer out & stay back
all day. Walter & Ralph then
stay from seven

(84)

1920 Spent the day in all forenoon
at home but we were not until noon then
it rained steady & had all
afternoon but it was a cool wind
all the time a lot of rain fell
the last rain we had had in three
years. So, said a S. B. right for
hay, Ralph packed and started
hay all forenoon. After noon
went to Kelowna in hay but
not even saw.

" 2 A fine day after rain shows not well
and stayed in the forenoon, but after
noon planned for hay on X. B. 50
acres. Saw planned that all day
Walter packed start weed on Carey
place & Ralph spread settings
" 3 A nice warm day went to
Kelowna on train, saw towns there
on S. B. 50 for hay and on Sunday
settings

(85)

1920 A fine day clear & sunshiny
June 4 had next Dream & several flies
and commenced all day. Ralph
harmed & dressed & then drove
for flat in the S.B. so all day
Matters was pretty steady on
every place

" 5 A fine day for working but
pretty windy after noon and
some dust was blowing, but
Frank cleaned his log for that
noon. I harrowed and sowed
flat all day. Ralph drove
and saw also

" 7 A fine day with a ^{little} breeze
I think flat all day. Very fine
during the flat found one & began
second time. Ralph drove second
time and harrowed all day. Soil
sent down fine straw & plain with
Rep. B. B. & others, who were
very nice and we had some for
the house

(86)

1920 Rain a few drops from
June 8 but not enough to make us
come in out of fields but at
noon in evening we had a lot
of thunder & lightning and a
good heavy shower of rain.
I saw some for the first day
Ralph drove & harrowed
& sowed all day. A good good
day for working. Rep. B. B. &
with Cecil were allowed out
of house for hay

" 9 A fine forenoon but got very
windy after noon, and then a few
rain but drifted from without
just as if we were hot now. I
finished seeding all the flat to-
night. In day some plowing for
hay all day. Ralph finished
harrowing flat forward & began
to harrow the second forward
and Kennedy brought his second today

(87)

1920 Low day, pleased for halley

show 10 all day east of house, kept
harrowed & packed. I harrowed
some also and then under 13 rows
of barley, a fine day, hay & fire
went up and hopped down
some the channel

" 11 A dull dark day and sun
did not shine. Got all, sun
very pleasant for halley all day
Kaffel harrowed & packed some
and also spread some manure
I harrowed & packed. We had
a fine show of rain forenoon
but not enough to keep us in
this at noon a heavy drizzle & car
in and it was wet for awhile
but only delayed us about an
hour. There went to Car State
today & brought Smith's fine
old's brown Smith came
back

(88)

1920 A very hot day the hottest

since we have had. I harrowed
east of house with the plow & then
then got ready for Car State. Kaffel
packed all day & packed under
halley east of house & then
down the fence plowing east
of house at ten o'clock & began
manure at 11 when a gale was
very much up to sail afternoon
At 12:30 to Car State after
noon to attend a directors meeting
of the Society & then Committee
about tonight also known Smith

" 14 A heavy show of rain yesterday
evening (Sunday) and it lasted very much
like rain all forenoon and we had
a little but not much but it
burnt & then rained very heavy in
evening & wet. I finished seeding barley
next business early and then lay down
to Charman the whole forty acres

(89)

" 1920 seems, Tom placed most of stubble
for more barley and some smaller
they from straw,

June 15 a fine day with a good breeze from
west. I harvested barley from some

and finished it and also got some of
the eggs done near stable tomorrow
that are instead sowing in barley. Ralph
Edwin placed forward and finished
the price was stable for barley and
in afternoon Ralph went to see
Wade in Car.

" 16 A fine day and one foot for
morning. I finished sowing all
stubble with barley and Ralph
was digging them but did not
finish. Tom went to Cay grants
and began to plow for oats
we instead sowing them for
sheep feed

(90)

1920 A cold wet wind all day, sun
June 19 a fine clear warm but wet day

Cold for this time of year. I sowed
barley out of stubble forward and fin-
ished that eggs done. Walter harvested

in afternoon and I went to a school
meeting in St. David's Church afternoon
Tom placed on Cay grants all day
when we instead sowing some oats
in Orange Grove. In afternoon he fin-
ished digging stubble when I had been
sowing barley. This is late to be sowing
but we finish had on this date last
year

" 18 A fine warm day but there was a
nice cool breeze good for working. Tom
splashed on Cay grants all day
Ralph finished packing barley from
near stable and then came to Cay
grants and harvested the wheat
Ralph's wheat in pasture

(91)

1920 A fine day hot sun, but
June 19 a cool breeze. Sun & splendor
on Camp Grants all day. For
out of blame grass. Ralph saw
mauve forenoon and however
after, Mattie finished pulling
stick weed. Berne's daughter
and wife, her for tea also Mr.
& Maggie.
" 21 Raining a little when we started
then stop feed and we went out to
work but was only in field a short
time when it began to rain heavy
and we had to come in. Went to
Lark Lake with Ceil and we had
dinner at W. C. O, Mattie's son
blowing on Camp Grants afternoon
and Ralph's party, mauve
there. Had a good run today
it will keep, the family
says that did not help blowing
any

(92)

1920 A fine day warm pleasant
June 22 Sun splendor for some days
From west all day on S. & S. cows
of Camp Grants & splendor on the sun
Ralph's pocket & personal all
day, and Mattie's dress there in
afternoon. Ceil and Bert
Lark in hay's but not Berne's
daughter and his wife they
will stay a couple of days
with us.
" 23 Went to Lark Lake in daylight
forenoon & had some home, & the
to put through & writing his plans
for grade of. They showed alley
for grass seeds Ralph's pocket
& Harmon and Mattie's seeds
W. C. O. came out tonight and
through Berne's daughter and
wife away they are going to
Wanderer tomorrow in his car
and come there for and tomorrow

(91)

1920 A fine day hot sun but
June 19 a cool breeze. Sun appeared
on Cayo granite all day for
rest of same day. Ralph did
measure forenoon and forenoon
after, Maltie finished pulling
stick work. Berne's counting
and wife's hair for tea also M.C.
& Maltie.
" 21 Raining a little when we got up
then stop ped and we went out to
work but was only in field a short
time when it began to rain heavily
and we had to come in. Went to
Cayo Lake with Ceil and we had
dinner at M.C.'s, Maltie's son
blowing on Cayo granite afternoon
and Ralph's counting measure
there. Had a good run today
it will keep, the family
says that did not help blowing
any

(92)

1920 A fine day warm pleasant
June 22 Sun appeared for some days
Forenoon and day on S.E. corner
of Cayo granite & placed on the sun
Ralph's pocket watch and all
day, and Maltie's son there in
afternoon. Ceil went to
Lake in Maltie's boat and Berne's
counting and his wife they
will stay a couple of days
with us.
" 23 Went to Cayo Lake in Maltie's
forenoon's boat down house, the
to put through & writing his exams
for grade of. They showed alley
for game seeds Ralph's pocket
& Maltie's son and Maltie's son
M.C. came out tonight and
Maltie's son, Maltie's son and
wife away they are going to
Maltie's son in his car
and leave there for and Maltie's son

(93)

1920 Weather out & fine seed
June 24 all day afternoon, as it
was raining when we started
and we did not go down
in field in the snow, a good
amount of seed will do
crop good, but does not help
blowing away. Ralph & Tom got
all blowing for the first seed
done tonight. The first rakes
away and potatoes in cellar
all free but not

" 25 A cool day and we had a
show of rain but not enough
to make us leave seed. The
new seedlings in potatoes & the
some stems in blough on one
going to pasture. Ralph & Tom
of the seed in field when I was
downy Tom seeds & some all
day. There & humid was to
recitate in last hole tonight

(94)

1920 A fine day and seed blown
June 26 ~~to~~ seeds. Weather fine and
all day. Snow blown & had three
Ralph & Tom on some stems
forenoon and forenoon after,
the other some from Cecil's
today. Snow fall since it came
here today.

" 28 A very hot forenoon. Tom & I got out
afternoon about the better we show had
a big thunder storm came up from
west but decided and went South
and with me got no air but it looks
as if it felt west of here.
Blowing was to be our side today in
Ralph's field I was there all day.
Snow blowing all day. Matt & Jack
Ralph helped me from Quaker line
at engine. W. C. Harris spoke at
last have tonight a big crowd
there she spoke on fine grounds
and it was a fine night

(95)

1920 I could find out all day
June 29 in Casey quarter. Matt was
fixing the back of the house as Jones
got out last night. Matt was
downing, being, playing, & other
places: All day in the same
election today. My, some is down
to the ground and pulled on water line
not that tonight. Some of the
elections were fine
July, at Dominion Day and a lot of
sport in. Car was last one of us
went from the very house & she
went with the coil. Kappel found
nothing at all east of home
then water came and we got it
coiled up. A hot day and very
dry
" 20 Kappel finished making coffee
and the two boys got in the hay
from down. I took out place to
Don't have Johnson and had

(96)

1920 to leave it there as he became cold
not for it. A very hot day the
more the more and the more
rain today. More fall weather
came down from Carl's tonight
July 3 A hot day but a good
day all day and a big thunder
storm & wind came up at our old
we had a good shower of rain and
it will help growing crops, but we
could have started double as much
I plowed fallow in some all day
that is the fine & we have done at it
yet. Kappel went to Bar Lake
Johnson and had some and got
some some extra. Boys got
trough one to some and began to
water at the house as though it dry
" 5 A nice cool day clear sunshine
had a cool breeze. I plowed on some
all day changed horses and did
not stop plow. Bar from here

(97)

" 1970 Alfalfa into stacks, down
Saw back from Newry yesterday,
July 6 went to town to plow follow
and had to come home at eleven o'clock
as it got pretty raining a little
looked as if it might rain all
day, but only a few drops came
and the cloud off again. I plowed
on some all day. Rays & Tom got in
four loads of alfalfa and then Tom
went to Cart Lake and brought
home our plow from there
" 7 Tom & I plowed follow on some
all day ground about as dry as it
can be and went very fast on some
Rays got up balance of alfalfa
and Rappell cut grass in pasture.
A slight shower of rain at some
time was enough to lay dust,
looking at my watch on follow
tonight and find it is getting
thinner in pasture too dry.

(98)

" 1970 Day and all day saw down only a
July 8th very short time wind was in the
saw the rest all day and we had to
wear heavy coats on the plow all day.
Tom & I plowed follow on some all
day ground as hard as bricks. Rappell
& Walter got the hay from slough
west of school, Tom Rappell cut
in pasture, Walter was hoeing in
Sardis & Peleg's dirt and on some
trace was down at N. Smith's today
Rays all went to Chautauque
tonight
" 9 A very hot day Tom & I plowed
follow on some all day, Rappell
barned potatoes & cut in pasture
Walter was hoeing in garden.
No rain nor sign of any and
rain dry.
" 10 Tom & I plowed follow on some
all day, a very hot day. Rappell cut
in pasture west of home & Walter

(99)

1920 had away was blown. About
5:30 or later time. Left for Rapid
City took breakfast home in car
also took a row up that he
thought you had forgotten

July 12 a hot day but got cloudy
after noon and we are in hopes
it might rain, but we have hopes
So long and got left so often it
seems now as if it was impossible

to get any rain here and our
crops are dying for it, don't
please follow all day. Rattle
now scuffed forward in potato
and moved in pasture after.
Walter was busy all day

" 13 Very cool at times today and very
hard at other times. Don't please
follow on Sunday all day. Rattle
was cutting pasture on Sunday, Walter
having potatoes. No rain yet found
like this

(100)

1920 ²⁸ A very windy day from north
July 14 we had blow very hot all day,
and it was dusty blowing. Some
a splashed follow all day. Rattle
was cutting pasture on Sunday and
found it and began to rake it.
Walter cutting Davis Green on
potatoes. Myra is down to cut
chick in ear the first time I have
ever had but since it was first.

Very cool tonight
" 15 All very hot day hardly a breath
of wind and a hot sun, don't want
to plan home from town at noon
and afternoon he heard the heat
lands there and some patches that
we could not follow it was so
dry and hard. I finished all the
follow on Sunday all day. Rattle
started back day on Sunday at noon
Walter cutting Davis Green on potatoes
to harvest for his money so for
being follow on Sunday

(101)

1920 A very hot day. It's the
July 16 hottest we have had. Boys
& Sam cut hay and said it's up
all day. Went to the farm on
and went to Cox Lake after
noon. Lots of rain around also
thunder lighting, heard they
had rain at Weston but we
got none here

" 17 A very hot day most of afternoon
a very hot wind blowing had to
see how grain is standing and
no rain but a lot of it is dying
Some damage on corn all day
in fallow. Went to Dixie Lake
in afternoon. Found some also
attacked a meeting of Directors.
Boys worked all day and
for all month of July
up a case

(102)

1920 Yesterday Sunday was a very
July 19 hot day and last night we had
a very heavy electrical storm, from
8:30 until eleven it was as dark as
it could be not a heart in the
sky, lots of thunder and steady
lightning all around but we did
not get a drop drops of rain.

today a nice breeze from northwest
all day but a very hot sun and
no signs of rain looks as if we
would have weather out our barley
this year. Cool and thin lot in
six bars. Hay today fine some
I was cutting north of bluff
and finally it, that cuts
all our hay and we have cut
half enough of it. Some
damage on fallow all
day.

(103)

1920 A cool wet wind nearly all
July 20 day had some times when
wind stopped it got very sultry
and hot. Special potatoes in
cellar frozen and rotting
on seven after, Tom however
is fallen in seven all day.
Boys got some hay from
Seven,
" 21 All clearer on this day, and
rained until ten o'clock but only a
very slight fall and very little snow
afternoon. Water out in pasture, Tom
however fallen on Cay place and
went to Bar there is dry. Right
pocket fallen on Seven. Some lightning
thought we was to have had a storm
Suppose it will rain.
" 22 A dull dark day strong east
wind all day cloudy and fell
very much like rain a few
drops fell at different times

(104)

1920 and it looks as if some big rain
was around us, there was a heavy
thunder lighting, I packed on
Seven all day. Kaphle's water got
in three loads of hay from Seven,
Tom stuff for cattle and put it in
a stack near Ben house. Tom was
harrowing on Cay ground all day
A good splash of rain so we go to
bed but it only lasted a few min-
utes.
July 23 began to rain through the night last
night so early this day, and light as it
is the few inches after rain, not very
heavy at times not heavy at any,
time but a bit fell and found to
wet deeper than it has been all win-
ter. Tom went up to W. Co. this morn-
and shot him down the he stayed
for dinner and I took him out
to Bar there in afternoon.
Roads very muddy

(105)

" 1920 A fine day clear & bright. Got
July 24 this plow going in pig pasture
and the rest there is wet over the
winter deep. Welter put down 100
on potatoes and chook among
them. I went to Cart Hill after
noon and saw entries for fair
Broughda have a young Englishman
that just came from England for
me.

" 26 A coal seine from west all
day but a very hot sun, & passed
on down all day. Very fine day
~~very~~ fallow on farm at noon
and when cultivation there after
noon. Welter and the Englishman
at Rositer that started with us
today worked at potatoes from
and after they arrived in pasture
and days got on three loads day
for Cecil and took them up. Cecil
took care this some for us to both
with them.

(106)

1920 The hottest day of the season
July 27 Clear and sun like a furnace
with it would rain again and
then the day dark for a week this
kind of weather is making the
rain to part. I packed on some
fornoon then went to Cart Hill
for time after. Very pleasant in
pig pasture all day. Days in the
day and got all home that
was very good.

" 28 A little sun all day but a cool
breeze. I packed a few from and
Walter finished it afternoon and I
went to Brandon from dinner on
at P.M. when she started at evening
Ralph helping Cecil at day
Welter sat back up had they on
Sawm and hummed it. When
she is in pig pasture. Very fine
iced they potatoes at noon
and out in pasture after

(107)

1970 went out to get some at 11
July 19 Ceil came also and we gave
letters for fair afternoon and
stayed the night, a hot day
& 30 Cent hole fair today and
all our folks came out at
fair about as fast as usual
and a good crowd out, Richard
Christy, Gladys, Betty and
Mr. Schmale all came up for
today, Richard & Gladys are
staying and the others went
home today. Sister Jenny and
Alma Christy came up
from east ~~today~~ yesterday.
31 Mattie and Ralph went to
Schools near Hartney tonight
with Carl. A fair day but
pretty hot at times. Don mowed
lilies and did some plowing in
big pasture this week & gave
and spaced up ridges in the

(108)

1970 forty acres of meadow we intend
to break up. Mr. C. Longley Richard
Christy was today and he is staying
with us now. Gladys and our
folks went to get some to picture
show tonight and Gladys is staying
in Carl's house as Mrs. S.
July 2 Richard spent the day at
friendship and came back here to-
night. Myself & went to Carl's
in Carl's house & had Gladys
Christy home with us. Don
begon to plow meadow in
evening, very many ~~at Hartney~~
or fallow in evening. Ralph
& Mattie got in day out of pro-
two.
3 A hot day cloudy & some
heavy rain went around we had
a slight shower at noon. Don plowing
in lawn. Myself & Mattie
I set in hand all day with

(109)

1920 Some lunch an attack of
Linn lay. Gladys went to Howard's
trough. He had her all day and
thought.

Day 4 I am still back with bumps
and cannot do anything. Some plow
Sod in Sown all day. Harry ran
Cultivation on thirty acres of fallow
on Coney prairie. Ralph finished
cutting alfalfa second time and
went to Oak Grove afternoon
for load of coal. Richard and
Harry went out with him and
stopped in Oak Grove tonight.
5th day Harry still in fallow
on Coney prairie and some plow
thrust on Sown. Ralph went to
Oak Grove forenoon and for a
load of coal. He then on 1 hour
we afternoon prairie worked at four
M.E. Richard Armstrong and
me. As the evening was here

(110)

1920 Today for dinner Harry came down
from the lake last night and will
stay a few days with us
Day 6 A very hard day. Some plow all
day on Sown in Sod and Harry ran
Cultivation there all day. Ralph
had hay and mowed at the prairie
got in the alfalfa and left
D.E. came on this evening's bet.
He then Harry with him and his
starting all night with us
Richard Armstrong's wife took
Richard Armstrong and Gladys
home yesterday.
7th day had Sown, but a nice
and large. Some plow sod
on Sown all day and Harry ran
Cultivation there. H. Armstrong
had for dinner. Carl will all
with him and was for at
Director's meeting. Today I am the
in home with the live deer

(111)

1920 Grass was a bit short afternoon

Henry went out and left on from
de laer's barn for postage en route
for Kaphan. Kaphan went up to
Bea's and drove his horse after-
noon. Walter was today at dinner

Aug 9 a hot day but a good
breeze. I went to leave horse
forenoon and began cutting
wheat on Croy quarter after-
noon it is full blowing and
a very light crop. Kaphan
& Walter were at dinner
and spoke fence around
yard. Tom placed the rose
on fence all day. Henry
came with me to Carl's horse
as he has a sore shoulder
"10 Kaphan started back this day, but
only got a little done so he is began to rain
and he came in I started out with
other horses but did not get to field

(112)

1920 on a bit of rain, tried it again at noon
and got the horses going for a very
short time when rain came on again and
it rained hard afternoon a lot
fell and we got no work done.
Tom got a little plowing done forenoon
on down.

Aug 11 a hot day and up forenoon
and we got the two horses going
afternoon got a lot of the field
plowed out. Walter's horse is
standing in mud plowing in down
"12 a very heavy dew and we
did not do to the horses with
9.30 at noon my horse's horse
and Kaphan only worked a
very short time afternoon
when his horse so we got
very little out today. Went
out for a pair's out only
got a few of them even that
we decided, then working at engine
today

(113)

1920 Got one lumber piece out at

Aug 13 work in Aug, and kept it
going all day and got the 40
ceiling of floor following the
door to get there for repairs
and had to go in to board
in car for repairs. I didn't
come here to see for what to
do. We're not seeing air but
and I thought the lumber piece
is blue because they cut here
with me. You showed all day
Bill came down with his
lumber and is chipping us.

They got all day
14 Bill, Halph & Stan in Car
quartz all day and finished
all the work here eight men
in all. They got day. I met
to bring a bucket all day. Found
a blue. They went to
Car here in Car this afternoon

(114)

1920 A coal charge from car

Aug 16 all day. Bill, Halph and
I cut in the 40 area of what
north of house and found
it this evening and Bill went
home with his lumber tonight
we also got around the last
piece of what the 40 area was
Boarders. Bill's house has started
all day also. You were cutting
in between all day
17 A day but she day. Lumber came
with wood & all day and had to
work it was so hot. A lot of
Hunks and lightning last night
but only a very little rain fell.
Kept. In the morning going all fore
noon in forty area north. Boarders
but only one man after noon, maybe
seven. Blue & I all went to Car
State afternoon for repairs and one
lumber still has ten tonight

1920 Very windy at times today
 Aug 18th Show at other times. It
 was a dark calm and fair
 feel. Sat. Showed three ^{times}
 To Car Lake in P.M. today
 for repair for bushes and
 show tonight. Kapplet went to
 see ^{the} ^{place} for a reform there.
 One herd has three horns,
 today and a horn did not
 feed at all we are having
 our our feed time ^{with}
 them.

" 19 A very windy day so much so
 that we did not start afternoon
 hunt at what was ^{the} ^{best} ^{time}
 all day and finished it all
 Kapplet went to Car Lake
 to get some & get up bushes from
 get separator home from
 Kennedy's car ^{from}

1920 A very cool day wind N.W. all
 Aug 20th day. Show for a heavy coat
 and up in hair for a very little
 hair tonight, there was a little
 fun & this way when we got up
 but not enough to make any harm
 we can suffer in any quarter
 all day. Many was starting in heat
 there, Walter started in 110 south
 of house, Kapplet's went out all
 day the brown crop down out.

" 21 A fine day but very hot, a
 front has by its ^{own} there was
 we some places but we did not
 see any here although there was ^{one}
 on Douglas, Kapplet's fine see at
 they ate this evening and made two
 rounds on Charley, but will catch
 any more of it, just some out is
 present. Now fine had with a little to
 in yellow in any quarter, many got
 all what in any quarter started

(117)

1920 A fine day but very hot
Aug 23 Ralph went up to Ceil's
today and planned there, Ceil's
came down also this morn and
the men started all day and
Ceil helped Walter & I at
separators we got show deck
out and had it to car here
for repairs. I thought in the
middleman's fat some re-
pairing done to blow rhysses
Kangas went to Berlin today
and ordered a pair of planes
for himself. ^{from what I know}
from getting tracks of goods
today.
" 24th CE for they with a good
change but very hot morn
I went up to see G. Young and
for his repairs for the dollars
if I can make it work
then went up after it after morn

(118)

1920 He went to car here for
morn & brought home some
gasoline and coal oil. Ralph
is still up at Ceil's blowing
there. Ceil, then & Jennie, then
Auntie and there all went
to Brandon in car today and
had best some repairs for
car separator. Kangas & Ceil's
had show they had all day
Walter succeeded after morn.
dinner to car & make in buggy
what I have some from
D. Y. Story.

Aug 25 A fearful hot day. Went to
car & take afternoon in car and got
some repairs for separator. Ralph
came down from Ceil's at morn and
Walter went back to work there. Got
all our work started today and
nearly all the work. Ceil worked
at machine all day. Then went
over

(119)

1920 to Car, take a snow a foot
wagon piled and that, have the
other does for hours here. Men
very hard all day but do the sun
and wind was of a fair shot.
Days the weather very windy and that
day had pl and all our chaps
while, show a lot of water, it got
So windy, we had to come home.
Snow piled up caps and got in
saying. We got the down on to
reparation of the snow, then I
took all our out to Car here
and left it there to do the
Mallet came in there and we came
home in that, Coil firing at
separate and has it nearly
ready. Car for the few feet
available tonight
1920 A nice long all day but a
mild hot sun. a pleasant day for
war things, had pl and down

(120)

1920 barley all day out of home and
fertilizer it, the power crop down
out of barley the fully come only two
thirds pounds of down, now feed
at wagon Mallet strong at
barley.
Days a fine day out so hot so we
have had a lot of water. Since the
reaper in flat this way, but it
would not work so we got
at it with a few men and
cut all day very hard but
and we have to chop
reaper of the, had pl and barley
in straight but there is some
cut in the spot that he did not
cut. Mallet showed around
who worked down, heavy
fertilizer starting barley in field
and took both out of old down
after as it was blowing a summer
and we could not start

(121)

1920 A heavy rain yesterday evening
Aug 30 and today dull - dark and
kept dropping rain all day
Remond went out to 20 rods this
morn'g, back out Charles, Kappel
& I went out to the back, near
Charles and I waited for
some blueberries, Wilson
the engineers have from Anderson -
dine today words pretty sweetly.
Harry getting up, Mark & Emma
Walter & Elsie, Wilson, Sam
plowed in pig pasture fore-
noon had not hid up the
on a few rain.
31 kept dull and dark all day
and Sam had not done work
like home rain, Sam and Kappel
plowed in pig pasture all day
Walter and Harry set up a gate
and Emma in back field,
Lunched at Op. Society house
all day

(122)

1920 A dull day and Sam did
Sept 1st not rain, a heavy rain
after we went to bed last night
and I think they had a big rain up
at Kenton today but we did not
have any today, Sam plowed in
pig pasture until noon and then
Remond, Kappel plowed there
all day and finished it, Walter
was working at engine and
Emma & Freda, Harry was
getting up a house, Elsie
at Op. Society house with
Sam and then went to Oak
Lake words sweetly.
2 They hot and clear in town and flow
as full as the houses, Sam plowed in pig
pasture all day, Sam is done this time.
Kappel plowed with Sam backcountry a Sam
and Elsie of tea room, Kappel had
and Emma, Walter free house long &
circle, Harry set up Emma

(123)

1920 A fine day hot and dry but
Sept 3rd not much wind. Ralph was
having cultivation over harvest on
Cory ground this afternoon
he fixed up sheds and cut some
hay in Aylesh. Don't know on
Dennis all day in backcountry. Walter
was mowed in Aylesh afternoon.
Harry finished setting up screens
and a hand saw for home
Sept 4th A fine drying day hot but
and a nice breeze. Jennie, Alva
Dennis they and I all went to
Stewart's forenoon to get supplies
for engine and also work for them
all. After noon I went to Car's
to E. G. meeting and there attended
a women's meeting. Boys took lunch
Jennie and Alva hunting out
to Car's here thought they expect
to leave for Ottawa next Saturday and
will not be home this year.

(124)

1920 A fine day. I was mowed next
Sept 6th of day in Aylesh water was in
some rain. Ralph was cultivating
on Cory ground and the seeds
Aylesh there. I went to his forenoon
at noon and made out a will for
them. He went to buy for me in Braden
at noon. Cecil chose as his new
mowing machine as his old machine
was too old to buy at Braden. I
was at Car's to get supplies for Car,
Dennis and Jennie. I was at Car's
here today
Sept 7th A fine day hot and dry cloudy
through the day and hot at
noon but cleared up again. Cell
tomorrow and speak to the first
I cut that all day. Don't think
we follow on Cory ground. Ralph
was cultivating on Cory ground and a
few. Cecil's mowing machine
at machine.

(125-)

1920 A very hot day down to
Sept 8 Here afternoon for staff for
Departure. A lot of letters this
morning. Very warm. Ralph was
at dinner in the afternoon. Some
friends were looking for a follow-
up on my quarters. Can answer at this
point all day.

9 A fine day warm and pleasant
we began to think in good this
morning. With our own three teams
and in afternoon Rowless this
team came up. What a fine
sample but a little blacked
with rain.

10 A fine day for Thursday but
and very little wind. We finished
in good all day with the usual
business and did not see any to
steady. Finished in South
field at ten o'clock and finished
in 40 next morning before

(126)

1920 of day. I took out two weeks
to have the see in evening. We
all went up to Mr. O's farm to
visit to see the China Mustang
and see the young foals.
Have our own horses for the
breakfast now.

Sept 11 Warm last night and we could
not think this way. We also had
some sheep shown through the
day and also some hail. One team
planned on some in short stay all
day. This went to last date in
Sept 14 of the room and saw that
Dennis and Alvin running away
for Ottawa. Ralph's horse up
partly. Water cleared a team of cows
home and finished. No rain
mostly now and business
morning there all day.

(127)

1930 A fine day and we started
Sept 13 in good weather from release
and finished the 400000
Hawkins also started a load
of oats, then machine went to
Hawkins and started all his
oats before night, then had a
little trap & fair thing this
morning. Well from in good shape.
W. J. Smith morning horses
in that all day.

" 14 Machine started at Hawkins all
day. John & Carl left, she had around
and at three o'clock went to Camp
in Car & she started for Hawkins
it was drizzling rain when we left,
the radiator was starting to leak,
we went in to Hawkins & there
it fixed, then Carl asked they got
there and was then raining very hard
& we came home, rode to Hawkins
but not to reach main house as
Briswell

(128)

1930 Did not start at Hawkins all
Sept 15 day as it was too damp, then
Hawkins started to start at noon,
I took out 39 bundles of what fore-
know to W. C. Quinn then in after-
noon down & I took out two loads
I had four horses & had 96 bundles
on. A good day for day and machine
going to start at Hawkins tomorrow.
" 16 A fine day but not dry. Boys
then left at Hawkins water 3.30 pm
we had lunch on night and turned up
to Ceilo. I got down to last horse
afternoon. W. J. Smith packed
what with some then went up to
help the some bundles to start.

" 17 A very hot day with fine air
when it got very hot, then was
all day. Boys all at Ceilo thinking
I had five boys forenoon and W. J.
packed afternoon, and I took a horse
bundles when to last horse with four
horses

(129)

1920 A strong east wind all day.

Sept 18 night and all day. Did not attempt the threshing. Boys came home and we took out two loads.

about afternoon to Cart Lake.

Also got home our hayforks. Can, very cold all day.

' 20 Very foggy and damp this morn., and rain did not show until afternoon. Coal began to thaw. Monday at noon finished it and got some more done. When it thaws about what to do later from

' 21 A very hot day. I took some wheat to Cart Lake afternoon.

Boys threshing at Ceilo all day. V. J. Smith making up sleep

' 22 A full foggy day and some rain. Helped getting from the mill about noon in afternoon, but probably did not stop threshing. I ran Carlinton on down in Done

(130)

1920 Threshing forenoon and in afternoon

went to Cart Lake in car and had in Carpenter to fix the machinery. Broke down mowing at Ceilo with less than some wheels broke and

we were able to run any more until Monday or perhaps Saturday. Wilson the machinist down from Bradshaw and

we had to wait for a pair of boys. V. J. Smith finished mowing about at noon and took one wheat to Cart Lake afternoon

with four horses. We got in two more potatoes this afternoon. A very fine crop

Sept 23 V. J. Smith hauled out two loads wheat today with four horses. When I got out potatoes, show me calculation on some forenoon and planned those of too. Robinson the carpenter fixed at celebration part on the or

(131)

1920 It very cold last week and
day and we had a few small
showers of rain, but about five
or six it rained pretty hard
and we had to come in and
leave some potatoes on top
of ground, having a little
left me to feed.

Sept 24th Snowy until noon but after
noon a good drying time and from
dried well, but another shower
as we go to bed and lots of thunder
& lightning around. Robinson
putting a coal in furnace. Snow
blowed in some all day and
Ralph with snow, after noon
he & Walter picked up potatoes
that they with cello, we
shove half of them in snow
bins & that last afternoon
in exposure & last found some
from John Bradshaw's working at
in before at creek.

(132)

1920 Robinson working at furnace
Sept 25 - all day, Lewis went to Boise
and helped saw from Bradshaw
dine went at engine and still
it is not ready. Snow about on
snow all day and I worked around
home. Not rain last night
and it was dropping a lot all
day.

" 26th Blow very cold from N.W.
all day and it was a disagree-
able day, but saw show like
snow. Lewis up helping with
engine all day and saw three
from Bradshaw. Snow & I
took out two loads of wood
to Park Lake and brought
home two loads of good saw
four two and a half. Still
like snow tonight. Maybe we
out to Hugo's fire for today.

(133)

1920 How a hummer all day
Sept 18 from N.W. very cold and
hardly any wind with one
coast on. Carpenter worked on
putting a second on about
seventy to one late forenoon
It rained some to have
been dead, at noon went
to Greenfield they in evening
I had to see the Roberts
out to Car Lake. Robert
spat Ceils all day making
at fixing engine & etc. it
going. Quacks in landing and
all home. You should on
again all day.
" 19 a fine day but cool with
a breeze from north, expecter
from last night but there
was some this way. but I
expect it will be very dry
and tonight. We were

(134)

1920 all up at Ceils today thinking
out - both brother & sister
up also, the family all the
from and machine expect to
be here by from the young
place
Sept 30 a fine day warm & bright. Boys
could not get machine to start fore-
noon and Quacks took it out to Car
Lake and they got going at noon & made
good time after dinner at Home & I saw
showing and working at home.
Oct 1st a fine day warm but a good
breeze all day. Quacks, about from
and about generally. Boys all away
at Redburn, young from Thursday.
There was to see here in August
and that seemed home
" 2 a fine day only in rain a little
forenoon but did not stop thinking
of it. Quacks has all day and down
at the house when you see. There

1920 we had out so much we have
 all the wheat we have there
 & thought we had found of
 Paradise. Days thinking at home
 all day fine. See his wheat on
 Grand place and nearly fine
 the rest also.
 Oct 4 A splendid day for thinking
 Clear & hot, wheat has all of wheat
 from Oct now today there were
 to long granter but there has
 a head for you in the night.
 wheat to be made tonight for
 repairs
 " 5 A very hot day, warm and July
 checked wheat all day in long
 granter and got along well. It
 went to Oct late tonight and got
 all from fine at Storg.
 " 6 Fine day thinking all over wheat
 at now today wheat to take
 and began to think long

1920 and put steam into left
 the first time we saw the
 barley today out very poor. I saw
 today it all above our feet
 a granter and the long
 Oct 7th A perfect day, so warm
 as July, we finished thinking out
 a barley at fine select and machine
 started for Wheat but have none
 checked and I had to go to Storg
 tonight and get in granter. We
 had about seven hundred bushels
 of oats from forty acres and 500
 of barley from 45 acres
 " 8 A perfect windy day, small
 not checked. Wheat is 3 weeks
 at potatoes all day. Raffle
 was six in home. V.S. Smith
 played as basketball in home
 J. J. handle and his hands
 of wheat.

(137)

1920 A fine day, Thursday, they are
Oct 9 Day had a lot of trouble
with repairs it got down
and we will be there one day
at it I expect.
V. S. with me the two trips
to the lake with a lot
" 11 A lovely warm day, Thursday
they all day what had in full
it was very dry and nice and
rain thought very fair, health
sett with enjoying today
" 12 Very damp, tomorrow and a
heavy day, tried to track they
in camp, but could not make
it got it was so wet, so let every
one go home and we will find
it our selves, clear out of town
about 10 AM here in the morning
V. S. blowing in from the sea
V. S. took bird skins to the lake
Sunday got out few more potatoes

(138)

1920 A dull all day and N.W. all
Oct 10 Day and it fell to camp we could
not get back because of fog, V. S.
tried walking down to sea but fog
held up the road forever, so
that we had no more of land
all ready for a boat, we began to
blow on the grass after the
the first fog following we have
done. Our potatoes all with mold
at noon, and Ralph's wagon to
cut out new harness for the
V. S. made two trips out with
the boat, water when he returned
" 14 A fine day but a cold wind
from N.W. new night. Down S
planned on Camp grounds forever
and after the boat into stream
there with horses, V. S. took some
load which forming a part
home after, Sunday had morning
after we got from and a day

(139)

1920 Loads of Hay trucked
feeding on Washburn's horse and
we still have this week to
finish yet.

Oct 15 I went to the lake foreman
walk 1032 bundles of wheat
at 7:12 also got some more
for feeding, kept in the plane on
Coyote grounds afternoon started in town
" 16 A heavy white frost this day, and
it was new before it died. Some
blow on Coyote all day
lost out the forenoon this starts
" I finished this day the day
afternoon it took us all afternoon
to get finished a very late finish
Kapp's worked on road all
day

" 17 A cold strong east wind
all day and began to rain first
the fore we went to bed and worked
very hard for ~~an~~ day, down

(140)

1920 plowed on Coyote all day
Kapp's out with down there
I have since has cleaned, cleaning
a bar in the field. Kapp's chole
around for in some seeds
also killed all the way on
the to the evening garden.

Shank's firing today
Oct 19 A fine day but chance very hard
last night a lot fell and in
some places ground is wet fine
we see deep, but as a rule it is
not so deep as we are blowing
Kapp's side road around forenoon
and after I plowed on Coyote place
then plowed the all day. Kapp's
was cutting out on day place
afternoon.
" 20 I went plowed on Coyote place
all day, I went to the lake
afternoon to attend a meeting
of Mineral Creek. Kapp's

(141)

1920 Oct rats all day. Walter
Chowd from on and about
R.P. rats after we they are not
where he left is getting

Oct 21 Don placed on Cay grants
all day. Walter was busy in work
all day. Keppel finished setting out
on Cay grants before and in
afternoon he and I went down there
and a hunt up rats to day. a very
warm day

" 22 Stoggy all day very thick with
brown could not see a hundred
yards at times, we also had several
showers of rain, after noon it was
clear but sun did not show all
day. Very heavy thunder's lightning
this evening and lasts as if a day,
rain was wet. Don & I placed on
Cay grants all day. Keppel was
relieve of duties before forenoon and
afternoon Walter helped him in
Cay grants

(142)

1920 Oct rats to follow in Cay but
Oct 23 only made one round and that
to come in on account of rain, kept
very dull and drizzle rain in the
noon when it cleared up and two
teams went plowing on Cay grants
while Keppel went to forest because
down in follow on Cay place. I
went to Car Hole afternoon to attend
since the meeting of Geo. Wood's.
I drove out in happy to roads are very
hardly

" 24 Went to plow on Cay grants this
day, and had to come home on account
of rain, it rained at forenoon and
very heavy. At noon Bryan, Grace
Wm, George Smith and all went up
to Regman and water on home day
prohibition, Don & I placed after
noon. Keppel has to go to
Car Hole for tongue for Regman
Spears.

(143)

1910 A cold N.W. wind all day
Oct 26 Snow & Rappell plowed all
Coy granter all day. Snowed to
All Lake in day. & brought
out his horses who were out
White has Cheung then went and
Fried Redens also. Snowed down
to reserve afternoon and brought
stack of hay from below down
Blacksmiths at 10⁰⁰. Strong
hard tonight
"27" Strong party had this day.
and we did not begin to plow
until ten o'clock, then we plowed
until eight o'clock in the
Rappell spread manure on Coy
granter. Walter went to Oak
Lake afternoon in there on
J. J. Smith has for dinner also
a fine belly hawks. Saw him
all day but a cold near went
and it will freeze very hard
today

(144)

1910 Snowed to Oak Lake very cold
Oct 28 this day and found frozen
and did not plow any water
after snow. Snow & Rappell spread
manure on Coy granter. Afternoon
Rappell after hay feed road and
Walter. Walter saw snow & plowed
"29" Snow & Rappell plowed until noon
then after noon snow & plowed
& hay spread up into snow
& did have manure, but we
were long and have to begin to be
frozen.
"30" A very cold wind all day
found N.W. snow & plowed for
manure & saw Rappell afternoon
Rappell got in load of water
manure and after snowed to
Oak Lake & saw Walter plowed
& Rappell finished spreading
pile of manure on Coy place
today to snow all day

(145)

1920 A clear day and fine weather.
Jan 1st Had a very cold wind from
N.W. and very cold all day. Mr
Barnes did best night. I took
himself out to get horse this morn.
in afternoon then in afternoon I
went to restaurant and bought a
stack of hay for \$15.00, then our
hays stacked the rest down was
burning for fire loads of.
" 2 A nice evening forenoon but it got
cloudy & cold wind from west afternoon
Don & Maude started out forenoon
and Ralph went to Cart Lane and
got row of pds from 4 to 8, December
afternoon will come down in car
and we all went down to Barnes
hayric twice & then came home
from home but the rest of us
went on so he was dinner today,
A large funeral, Barnes thought
that feels like never.

(146)

1920 A fine day clear and not
Jan 3rd very cold but could not blow
this way before at once. But very
windy afternoon and for a while
it was a regular snowstorm.
Maggie & I went to cart late afternoon
and took the 3.45 train for 4 pds
for this all night and if that
rain the in afternoon and
also rain and this night after
we got there
" 4 I attended a meeting of 2 p.m.
Society's executive in Park Avenue
Bldg all day today. Maggie went to
Boston and also visited at her
Cousins Mrs. Stalons' dinner
there also for tea. A fine clear
day but not cold no snow
yet, but feels as if it would
soon stop blowing.

(147)

1920 a fine clear day and not
long cold. Myrtle returned to
Boston thro' day, then on to see
Parliament Wills, then back to
Boston for lunch, I saw Henry
Young at Boston and after lunch
we went to see Frank J. Mahoney
then went to the Seamy somewhere
had a pleasant talk with her
then went to O. P. O. station,
and left for Braintree at 3:15
reached Braintree at 4:30 and
we went to hear Mrs. St. George
King speak in City Hall, a full
house and splendid speaker.
"6 The first train at 9:30 thro'
day. For last time Werts was on
it. Can see we got home at
two o'clock found everyone all
well and the dogs had got
out a lot of business, also
finished plowing the night man

(148)

1920 on Day plows, but could not
plow any more as it is frozen
up now, although I saw some
plowing going on yesterday between
Braintree & Wey. I have not been
well since leaving home and see
doctor on no change. But these are
the talk me to go to bed for two
days and see no solids for a
week, so I see to bed soon as
leave home
"8 A nice day, but about ten miles
it got very stormy and we had a regular
blizzard all afternoon, winter is here in
earnest now as we go to bed with the
thing as in middle of winter. Robinson
(Confort) has today going a Jimmy
Ralph went out in hay, ~~out~~ with
two pigs to Southwick's and had some
some blades for school, but had to
bring her for dinner.

(149)

1910 A fine day but cold
Jan 9 I sat in home all day and
very well. Keppel went to see
Hate in wagon to get an apple
from Burns and had to come
home without them, so Gracie
went out in afternoon after
them home, but Robinson the
carpenter went out with
him.

" 10 A very cold day Jan in
home now with Sunday. Keppel
& Gracie went to cart that got
lost and for school. We also
got on some steam track

" 11 A fine day and not very cold
Jan in home all day. Tom got on
all stairs and down stairs, Keppel
went for lunch for one forenoon and
then went to Bill's in car and had
hair done, Gracie washed some
and change around.

(150)

1910 A cold day and around a little
Jan 12 but nothing to speak about. Keppel
and I went to repair today and I
showed him the two stacks of hay I
had brought from the out Gracie went
down for two loads. Annie's came home
with her baggage tonight. Very cold
and foggy, had all the time.

" 13 A fine day but cold. Went
to Cart late afternoon with car
in car and I brought home
our own big haystack tonight
it has been at Stuy's getting piled
up. Kettle down from Robinson and
went home with Bill tonight. Boys
got two Keppel & Mark the gas two
loads of hay from W. Blackman it
and Gracie washed in afternoon.

" 14 Very hot and very fine today
and I stayed in, had all day. Boys
got all hay from home from W. Blackman
and it's today. A nice day and not
very cold.

(151)

1920 A very fine day and not
for 16 Call Sam and boys killed
three dogs today. Day is, he is
day with one shot. J. S. Ketter
thought we might at once and
had dinner here, then went to
Beils.

" 19 A very fine day, I am better
today and am up all afternoon
with me it was today price for
260 dollars. Boys went to Beils
when today and for the first
of day, I thought a stick from
then as well as the Blacksmith.

" 18 A lovely warm day and with
no words in place as the sun is
melting. Sam's got this into day
today from room. J. S. Ketter
came from Beils in afternoon
he is present to himself than to
Olaf Smith for a parcel and
then on to Port Hope.

(152)

1920 A dull dark day but not
for 19 Call Olaf and Jett Beils
Snow on rain but it began raining
about four o'clock and rain is quite
a bit before we went to bed. Beils
came in on the way, & he and Sam
to the store home for dinner. Sam
went out in hay in afternoon and
thought Sam's home after school
Sam got two hats day from room
afternoon!

" 20 A fine day but it rained last
night and this being and all day the
fame & every thing roads very slippery
last cars all the time. Sam's to
Port Hope in evening afternoon price
up some things there and that some
money for trip west. Howard &
little all day but feels like Sam
today night as we go to bed
but it is not cold. Spent some
papers in mail in Port Hope today

(153)

1920 Left home this morn. Feb 10
 1920 we out to our store and we took
 train for Saskatoon arrived there 9:45
 I would meet us at train, came down in
 his car from Blair Lake. A fine day
 not at all cold. Staying at Albany
 Hotel, no snow here although snow
 wet at home, Sat and took to Quet
 until Beche returns
 '23 A lovely day, Canada until noon
 then clear sunshine all afternoon
 and not a bit cold. Had a fine
 night rest and had breakfast 8:30
Home did not get up until mid night
Friday & I went to see Small things
for me, forenoon, then in afternoon
 we went to see Neil things for me
 and had tea there, Home was with us
 and took us out to see Open College
 and farm. We got into sleeping car at
Saskatoon at 6:40 and we are staying
 on track ready to leave, going by

(154)

1920 C. N. R. train leave with
James going to Calgary and my
with the children
 for us to go before daylight and had
breakfast on train car and met Mr.
Richard from Winton on his way to
Calgary, also a very warm lady that
was a part of them, lots of horses
and cattle out on prairie, also lots of
steam trains. When we are at Winton
Saskatoon about 10:10 clear train
on show late, reach Calgary at 1:00
But should have been there at
 1:00. The Winn Winn. Co. had
reserved a room for us at King
George Hotel and we are now in
room and waiting for a telephone
from Dr. Winn Winn Winn Winn Winn
Call for him to Edmonton, a lovely
day rest very call and see very high

(156)

1920 A lovely day warm and sun-
ny 25 but tonight is windy and a
bit colder, I was at Edmonton all
day until this evening, Maggie's
where at Hudson Bay also for the
even, she was to go to see her
after dinner and if time is staying
all night as she has not come
back to hotel, I went to a fine
concert in West Church tonight
" 26 A very fine day and indeed
could not work with our letters
set in paper still all day at En-
derton it did not finish un-
til midnight tonight, Maggie
stayed with Burns all last night
and today for days to write at
fine to look. Was with Dr. Hudson
and R. Doherty all day, En-
derton was all one hole for
Edmonton tomorrow, the
fine weather and a pleasant time
in Calgary

(157)

1920 Left Calgary this day, in P.M.
for Edmonton reached there at
4:30 George Stewart was at
station found them all well and
was that fine, W. Hudson came to see
George got off there
" 29 A lovely warm day, I went down
to a place with George and had lunch
with Stewart in Hudson Bay store
then I went on to see Thomas Country
and had tea at shop place
" 30 A lovely warm day, in afternoon
George took all the women folk down
town in car and passed through the
store, Maggie & I went on to see
Carson who used to be business man-
they and had tea there, Olga's
Auntie came in also, Mattie Smith
came up to Edmonton this day, and
is to leave for Saskatchewan tomorrow
night, Maggie & I took the P.M. train
for Regina at 9:30 P.M. and
was

(158)

1970 reached there at 12:30 Saturday
and Wallace met us at station and
we got to his place at one o'clock
in morning
Doe! a fine day and not cold
I suddenly drove over around country
some forenoon and we went on to
Keyserville in Aegix and got some
roads fine and just enough snow
for skidding but Cars run fine
also, Wallace took his mother
and maybe down to see Lewis School
and also some of the country
" 2 Another fine day only it snows
a very little this way, Sat in home
at Dr Kennedy's until noon and
then Dore & I went to Keyserville to
attend annual meeting of Syn
Society, the had to pay \$2.00 in
so boots were not ready, walk
and then going to a shoe tonight
and that is our to Keyserville

(159)

1970 again and we took train for New-
ton at same school, we had returned
at ten and found them all well
Doe! a fine day, I got tickets from
Edmonton & Vancouver today via
Prince Rupert. Met J. R. Stewart on
street, he looks just as he used to
look, Stewart & I had dinner in Walker
Bay store. Went to Henry Stewart of-
fices and expect to leave Edmonton
at midnight for Prince Rupert
" 4 Reached Jasper at 9:30 A.M. saw
Car on straight to Prince Rupert
about half the passengers were on
C.P. & Vancouver and had to change
at Jasper, had lunch in Station
restaurant at Jasper in Stride
Station today. No snow and
very sunny so they seem to have
now, in other places before
but was this out over at all

(160)

1920 had breakfast at Southton
Dec 5 Station this morn. and we change
engines here about six miles of
down here, and morning this morn.
pretty good, we leave here at 9.15
Reeher Pacific station at 9.30 and
it was morning here, they say that
five feet of snow fell here every
winter, had a good dinner here in
station, following the Steam River
all the time and will do so to Bruce
Kuparuk. We reached the latter place
at 9.45 got on to boat at once
and left here for Urecaum at
9.15 a good crowd on board.
*6. Alps well all right and about as
steady as a fawn when it is out blowing.
Had breakfast at eight o'clock and
have nice little sitting room to rest in.
Mount and mountains on both sides of
us, and more than a hundred and
fifty yards on each side from here

(161)

1920 passed a large herd of paper mill
this morn. it is over 10.30 see deer running
since we left Kuparuk last night and
still at it although there is snow on
land on both sides, a pretty good show
in one place and several around a lot and
some people are pretty wild, the reason was
we got on sleds on ocean side but it
was only for a couple of hours. Passed
two little towns on each side of the water
and called Belle Bella and reached Urecaum
thats a big paper and pulp mill at
6.30 taking on 250 tons of paper here and
don't know expect to get away before
midnight, nice and warm
*7. Rain nearly all day and very cold
Spaced dinner Charlotte's house this
afternoon so maybe I'll want to sleep for
about three hours and the next get her
sick, sea was rough there and several
pitched a lot. A lot of passengers got on at
Ocean Falls last night.

(162)

1920 Reached Vancouver at eleven o'clock
Dec 8 today, went to C. P. R. depot and
checked the two men's cases, then started
up street to find Kettle's Home, got
to his office without much trouble
to take to him a few minutes and
on leaving his office we met Sgt. Wilson
on street, he had the car here when
we left and we went home with
them to Lumb's and to K. Home's for
dinner at Sat, and took leave for
the train at midnight
" 9 Reached Victoria at seven
This evening after a very stormy passage
across, passed rolled at our air field
rate and we were in bed and did not
get sick. We had our table in to James
Bay Hotel, where we are registered
and will stay for a few days,
We have bags for a week and made
the folks double under our feet in
beds. Peter and Theng's pack

(163)

1920 and country. A nice day but cold
and a few drops of rain falling. Went
through Parliament Bldg. afternoon and
up through town and after dark went on
to see see Mr. Callan, who was brought me
back in car. A little rain fell at ap-
proximate times through day
Dec 10 Maggie & I went to see Cameron saw
Bill the boy, and saw how our eye
into Lumb's and the whole performance
of making Lumb's, but back to heights
where Mr. Langens saw, he showed me some
We came back to hotel and water
there until about 10:30 for Vancouver
at 2:15. Having heavy and had all
they forenoon we are sitting in our room
now at James Bay Hotel at 1:30 seeing
man come down land and it has been
at it all day. Left Victoria for Van-
couver at 2:10 and we are here
at 9:10 P.M. that Cameron Hotel was
and have a room in that hotel

(164)

1930 Ales up Kharis and Alex
Butter tonight. Found rain all day
steady and at it as we go to bed.
Dec 11 A lovely day, very warm for outside
check out for day, but it did not
rain very today, Kopya's work to
part of these two days, and for a letter
from home. Then went to Kharis'
office for mail and then in our
found Sam Amantay, a Leo Gell,
Wilson and had them with
them, then Kharis came in car and
took us all for a drive about
twenty miles, then Kharis' wife
Kopya's I all had dinner at Kharis'
the four of us went to a concert in
Church
Sunday Dec 12 Kharis had all
day, Kopya and I went to Wesley
Church this day. And Sam Amantay
came home with us for lunch
then after noon we all went to

(165)

1930 first morning, she visited with her
sister and we visited with Alex Butter
Dec 13 A clear cold day and no rain
Kopya's and I went to Sushila's tree
but to school, then in afternoon went to
see V. R. Sidorov's house. So
Kharis and wife came to station to see us
off and we left Vancouver at
eight P.M. for Kelowna. Had a
nice time in Vancouver and everyone
was so fine. I was 61 today
'14 A cold day, some snow in
place, along road but not much
Dreyfuss for Vancouver this day, when
I got up. We were her Sidorov at
three o'clock in case of 10:30 and
reached Okanagan Valley at 2 P.M.
in case of 1:10. Reached Kelowna at
4:30 and found J. S. Kettle's house
in West country for us, went to their
place, had supper for two went on
to Sidorov to see Sushila's brother

(166)

1920 All as well. Weather clear and
freezing had tonight
No wind and very much pleasant
but no sun here all day. Saw in
John Little's house all afternoon
then in afternoon, Maggie, Mary and
went for a walk for tea. Then
settled, then went on to see Mr. R.
for tea, then on to see Sloan, where
we stayed for tea, John Little
was helping a man come out of
town today
16 A fine day no sun but not
cold. John and I walked ar-
ound forenoon and got to Mr. R.
where we stayed for dinner, then
in evening forenoon we went to
boat landing, spent some time
there came down to Mr. R., was
on it. Maggie at Sloan to
day

(167)

1920 A little snow this morning. Just
see 19 it all went away today.
John and I had a long walk south
of town forenoon, then in afternoon
to Sloan, where, Mary, Maggie and all
went for a drive in car and we
drove 26 miles in all up from
flat to the highest level but
before there is a plain of clouds.
We got a letter from Sloan today
18 Mr. Sloan says he is to meet
Burt today. Mr. R. says, Maggie and
all went today, had a pleasant
drive around and that is a fine
district, had dinner at Sloan, and
a little nearly all day in it's better
as it falls.
19 Sunday morning, we all went to church
from Sloan's, then Maggie and I went to Sloan
for dinner, then went to Mr. R. met Rose
spending there who had come from
West Point, then at fine ride to

(168)

1920 Mr. Brown took Henry, Maggie & Katie
or I drove to New Bedford, where we
had tea, met J. Weston, wife & daughter
there also Mr. Lewis & daughter all from
Ketchikan, they were staying in Kelowna all
winter. Mr. Lewis and family came on the
and took us to L. Little at 9.30 P.M.
A warm day but no sun
Drove to Kelowna this way for some
at 9. A.M. he had bought but all
the relatives there to see us off, we had
O'Donoghue standing at noon and
waited there for an hour for train, it
left for Kelowna at 3:15 last
reached there at 6:15, we had dinner
in C. O. Hotel and then had train
until train came from west at 10:30
Got into our train's sleepers
"21" Duplex at Shields this way.
where we changed engines & then
also put on water & had an
hour. Then could find freight

(169)

1920 Had a fine steady snow all day
got to Calgary about 2:30, we had
lots of snow before that, but car
filled up at Calgary so many people
going west for Christmas. A lot of
snow around Calgary.
Drove west to Red Deer tonight, just as we
got to medicine hat, but it was to start
there the country but there seems to be as
much snow here as at Calgary. Got
up this way. So far train was in home town
at 6:40 but nearly as much snow here
as at medicine hat in Calgary. We
are now at Regina at 8:45 running
a very little snow but not much
Snowy mountain east here at
3:50 Snow, snow & sleepers but
we at station and we got home
a little after dark, every thing
all right here and others
every thing looking well

(170)

1920 Clear cold today but

- 1921 A fine day thermometer from
Jan 10 above zero this day, and a
clear sunny day. I picked po-
tatoes in cell. Ralph took dinner
out this day, to school. Practi-
cally all afternoon, my father's house
went to see Mrs. G. under this afternoon
" 11 A cold day but pleasant. I
picked potatoes in cell all day
and dug the chow.
" 12 This took time and I was
to get home today she went to
Kegons to attend college there
for a few months, and I went to
Portland to G. G. Convent, and
found Mrs. D. was in town here
about there in London at the
G. G. Convent, a fine evening
there. Very cold and blustering
all day and some drifts
at night.

(1915)

- 1921 A fine day and hot cold
Jan 13 & attended G. G. Convent
forenoon and came home afternoon

This N.W. all day and cold but
not very frosty. Ralph cutting
wood on Carey quarter afternoon.
" 14 A cold day but pleasant. Then
went out afternoon, but not means
and brought home I showed from
school. My brother went out home
with visiting family. God's law
for dinner today and Clarence
Nemety went up home with his
" 15 Storms here all day from
east and is drifting quite a bit
the all out in snow today.
" 16 Wind decreased N.W. on Saturday
evening and then had from there all
day Sunday and we did not go
to church, very foggy and could
not see far at times. Thermometer
over

(196)

1930 was 22 below yesterday
Sunday and this way. It was
twenty four. Rail came down
for us here previous and for
Dunsmuir here for Dunsmuir
Afternoon program, the church
Kendall & all men & up to
Kippen Chime & when there was
the Congregational meeting. All
went well all day.

(197)

Nov 21 Convention at San College
today and we were up there all day
a fine day and most call had a
fine day in Convention and left
College at two P.M. for City
Wills Rose went to at Helene
Hallett and we went to eat at
Windsight. The best Convention was
ever at

(178)

Jan 23 This morn. got to Dan Lake
At 1:40 W.P.P. came out & took
Lott's horse, & stayed in Dan Lake
and attended at G. Brown's meeting.
Came and home with W.P.P.
Jan 24. Snowy day, all night
" 24 A cold wet wind but not
very frosty. Walter went to see
" 25 had got a load of ice
down & I went to see there
afternoon. Frost set in
Dan & changed horse with
Beil's daughter Charles home.
" 26 Walter got him home of ice
today and also saw a hare
for Beil. ~~Walter~~ below
" 27 A fine day, and a cold
east wind until noon with
when it got southerly, it
also got warmer towards evening
& fresh potatoes along

(179)

1921 A cold day but outside wind
Jan 26 wet all day. I picked potatoes
in cellar, but found to be hard in
cut the ~~hard~~ ~~potatoes~~ and
got mail. Days for a load of
ice
" 27 Snow came until all day
but did not snow any but
drifted some. I finished picking
potatoes and got at Monday, days
for Beil. Days now weather to
day
" 28 A fine day but wind came
and a drifted a little Walter got
load of ice and put it in cellar
of being home that makes
~~three loads in three~~
" 29 A fine day, not frosty but
it subdued a little. Walter
got last load of ice today. went
to Dan Lake afternoon in cut
to attend a directors meeting

(180)

1921 Work very cold today but is
Jan 31 Warmest all day a very light
fluffy snow. Snow for ice all
packed away and put steam on it
in Lewis Cellar. Snow went to Car
have tank and the pipe and had some
mail.
Feb 1, 2nd A fine day but it snowed
a little very light fine snow.
A bus Callahan from Albany
soon. Some tonight & see the
Kathleen Conn.
" 3rd had party but a cold wind
from South. Chrysis's snow & Car
Wade in after she attended a meeting
of women's duetists and also meeting
was out from a car we got in. Ralph
came out and had some love of
the auto. Mrs. Callahan came in &
Car Wade with him and went
home again. He did not buy any
St. Ann.

(181)

1921 I spent all day in Car Wade
Feb 8 unloading the car of rats
that came in yesterday. Ralph
got home two loads rats and
Boile took one load home about
1/4 of the rats he got, that makes
all the rats we will get for
Seed 290 lbs. he will see
Severed and returned from
east all day a lot of
Severed feet and it was a
disagreeable day. I went to
a lecture in face tonight they
had evening pictures along
with it.
" 4 Roads very heavy and not
many farmers. Came into Car Wade
but I got rid of all the rats
and now come in for one and we
got home at dark roads very heavy
& stopped at Mr. Co. last night.

(182)

1921 Kenlow came up this way
Feb 5 and took us out to Car
Lake to attend the lectures in Car
on Monday, it was well attended
Kenlow & I did not get home in
the night so is a short run to
get from Car Lake. We did not
bring bedding home from Car Lake
last night so we were afraid
it might storm and we could
not get the sheets
" 7 A strong southerly wind all day
but cold and is drifted some out
very faintly. Ralph went out to
Car Lake forenoon and has home
some coal for the house, there is
afternoon he took out a cow
we are shipping to Carberg and
last. There is some coal for
ourselves

(183)

1921 A nice warm day and some
Feb 9 Howard a letter, we had an
open nearly all day. Ralph took
out our fowls and shipped
the two down to Carberg, he has
home a load of pease today.
" 9 A fine warm day and cold
went all day without a coat
Ralph and Coile at the mine
and went up to John Johnson
for two loads of wood. Myra's
went to Car Lake in cutter in
afternoon. Made out they come
with loads today.
" 10 A fine warm day I went to Car Lake
forenoon took out three calves to P
Lancaster and but some fine bundles
of hay and Myra's Martha Row also
came home with me. Ralph got home
and then load of wood from J.S. Miller
found today, Martha to & Dave Smith
back to Car Lake last night.

(184)

- 1921 A very warm day. Sun melted
the ice and we at our own will
a lot. Ralph went up to build the
ways, took up Cleaver and began
the clean hallway. Mattie tried to start
our engine house today but she
to send out some repairs to strips
down took them out she also took
out my Hamilton and brought
her in home.
- " 12 A fine warm day and ice in
ground melted a lot. Lou went to
her store in Catter took out some
can and brought home milk.
Mattie cooked in afternoon
Ralph came home from Cecil
tonight.
- " 14 A very cold and wind all day but
was some clear warm. Ralph & Harry
did all day. Went to her store
in Catter afternoon for Charlie
shad, very cold wind

(185)

- 1920 A very cold stormy day and we
the ice all out in house all day. Went
some letters. Cecil & Ralph came home
for dinner and Cecil went home
before dark again.
- " 16 A very cold & stormy day and
all out in house all day. A fine
wind from north & drifting very
hard.
- " 17 A fine clear day and we have
bright & warm but wind very cold
flour went all day. Boys got all
chore done and all measure out, I
took the water down out in eight
milk heavy after 2 hours and see
at Catter nearly impossible
- " 18 A fine day. Lou came and we
sat around and did very little
all day
- " 19 Boys got load of feed out and
load of wood home from Catter
ton today. Very cold

(186)

1921 A fine day saw snow but
 Feb 21 a bad heavy snow pleasant
 day for us. Got our fifty bags
 over but today we got some
 when elevated for clearing it was
 heavy in it and I went to see
 it out to the plankton, Kappel
 went to the house of Thomson for
 mail. Bags are gone up to Cecil
 tonight.

" 22 A fine day blew and drifted
 a little forenoon but not windy
 after dinner, I went to Car York
 afternoon in car to attend
 General Cecil's meeting. Bags got
 packing mill going after noon
 and got a load of what clear
 for market.

" 23 A fine day and we sold about
 a load of what we had to Car York
 Kappel went to J.S. Scitels farm
 for load of what. Cleared up but
 what for tomorrow

(187)

1921 A fine warm day saw hot sun
 Feb 24 snow melted in sun and we had much
 did not get. I took our load what
 forenoon and what we had, Kappel got
 another load of snow and we have
 a load of what we had for tomorrow
 W. Cunningham saw how tonight from
 Car York

" 25 A nice warm day and with
 not very strong. Saw Howard Snow
 yesterday and water around in
 places. I took out our what
 forenoon but saw some
 bundles of hay. W. Cunningham
 left for home after dinner.

" 26 Arrived in New afternoon and
 made our clear up load of what
 We Kappel got some load of
 what yesterday from J.S. Scitels farm
 that makes for load we got
 Cleared all the what with today
 in it forenoon and what is

(188)

1921 out to Port Lake afternoon
and boat, drove the whole of
day from J. Caperton, boat
pretty heavy as it snowed last night
and blew some today, but it is
not cold

Feb 29 A warm day and snow but
the a lot, I went to Port Lake for
some and boat. Saw a lot of
day that makes three tons of
they are here for some in all and
I thought was more tons from J.
Caperton, afternoon started out
a boat of heavy for 8, miles
to Kinnikinnick and boat have some
and for school, water running
down hill some as it snowed the
in April
from 1st went to Port Lake for
some and out fifteen days before
what we cleared out of our out
and boat, have some coal

(189)

1921 for ourselves. Water cleared out
before yesterday and today. A warm
day and made me some coal and
as there any more.
They cleared out for ourselves
then engine got so dirty it would not
run so water boat is out to Port
Lake to be cleared and boat have
an American reporter for leaving
the boat. A call with said boat
clear our share but did not start
any. Wind for out towards night.
"30 A cold wind from east all day
and snow returned all day. Snow
at one when but we all stayed
in house nearly all day. Can
not start as there are packing
chairs on day now. At 11
little snow will help the work
some
